# **BOSS TASK™**

**FULL-SCALE, HIGH-PERFORMANCE SEATING.**

Designed to be a large-scale ergonomic chair, not just a chair with a wider seat.

# BOSS TASK FEATURES

## Slouching or Perching

Backrest angle adjustment fine tunes the back support to your personal habits.

## Intuitive Lumbar Support

Finger tip lever locks where you put it. No other chair adjusts 6".

## The Perfect Height

Seat heights for any size individual. Five different seat heights, ranging between 15" and 35", ensure a perfect fit for everyone at every workstation.

## PressureCast™ Cushions

Using a special formulation and cast under high pressure, PressureCast™ foam is incredibly resilient for comfort, yet high-density for longevity. This foam is 50% thicker than standard.

## Complete Back Support

Thoracic and sacral cradles merge into a gentle lumbar crest.

## Neck & Shoulder Relief

4" of height adjustment, 4" of width adjustment and optional rotation and depth adjustment customizes elbow support to your unique size.

## Relaxing Motion

Synchronized control that allows your body to open as you recline. Rocking ease and rate of recline are adjusted by easy-turn dial.

## Better Mobility

Oversized, 60 mm casters roll easily through plush carpet. Riveted for life-long durability. Every chair is outfitted with a 28" aluminum base. Cast as a single piece, there are no welds to break.
